

# Malago Road

## Clean Air Zone temporary diversion route

For access to **Whitehouse Lane, Whitehouse Street, Princess Street or Windmill Farm business and industrial areas**, vehicles which do not meet Clean Air Zone emission standards should follow the diversion route shown below.

# Malago Road – Clean Air Zone diversion route

**Malago Road will be closed northbound until summer 2024 (southbound traffic is still permitted during the construction period).**

Any vehicles entering the Whitehouse Lane, Whitehouse Street, Princess Street or Windmill Farm business and industrial areas that do not meet Bristol's **Clean Air Zone** emission standards would be charged if they follow the current diversion route in place.

If you are driving a vehicle which does not meet Clean Air Zone emission standards, we are providing an alternative diversion route which is not in the zone and so will not incur a charge.

**Please follow the exact route indicated on the plan** (*starting at Dean Lane*). Follow diversion signs for: **“Whitehouse Lane/Whitehouse Street industrial areas”**.

To ensure access to this diversion route, part of a traffic island will be removed on Coronation Road, allowing vehicles to turn right into New Charlotte Street.

*This diversion will be available from  
Monday 28 November 2022.*
